

Sic Bo Dashboard

User Manual

We are not an online casino and we do not offer any dubious winning systems for prediction!

Note: In gambling, winning or losing depends on chance. We therefore expressly advise against playing with real money stakes. Use our app only in connection with play money (in demo mode) within legal online casinos.

Furthermore, comply with the age regulations in your country regarding gambling.

Table

Pressing the table fields (as when betting in a casino) opens detailed view. Supported are:

- Big
- Small
- Single
- Double
- Triple
- Combinations
- Sums

Detail view (result chart)

The main roulette table interface features a central display with the time 10:26 and the title "Table". Below the title are betting options for "SMALL" and "BIG". The table layout includes numbers 4 through 17, each with associated betting icons. At the bottom, there is a display for "49" and "50" with dice icons, and a button for "...50 Rounds".

Eye icon to open the heatmap, with cold / hot chances depending on the current result (see detail view).

This view shows the roulette table with a heatmap overlay. The numbers 4 through 17 are color-coded: red for "Hot" and blue for "Cold". The "SMALL" and "BIG" betting areas are also color-coded. The text "Hot and Cold" is displayed at the bottom.
